# About Us

PT Cahaya Agro Lestari Inti was established as an agricultural trading company focused on delivering reliable agro-commodity supply solutions to domestic and international markets, while integrating farmers, suppliers, and logistics partners to create a sustainable value chain.

Based in Indonesia, the company began its operations by focusing on the trading of key agricultural commodities, including plantation products, food commodities, and agro-based raw materials, with a strong emphasis on quality, traceability, and supply reliability.

As the business grew, PT Cahaya Agro Lestari Inti expanded its operational scope by developing sourcing, storage, and distribution activities to enhance efficiency and better meet evolving customer demands.

# Our Products

## **Cheap Price Black Charcoal Natural Hardwood**

Hardwood charcoal is a premium-grade natural fuel made from dense hardwoods through a controlled carbonization process. Known for its long-burning capacity and high heat output, it is widely used for grilling, barbecuing, and in industrial heating applications. This charcoal produces minimal smoke and a clean burn, making it an excellent choice for both indoor and outdoor cooking. It leaves behind very little ash, ensuring easy cleanup and efficient performance.

Hardwood charcoal is ideal for restaurants, households, and commercial use where high heat and consistent burning are required. It is a reliable and eco-friendly fuel option for those who value quality and performance
